

How Some See the American Horse

To us, our horses represent the American spirit. They are beautiful and noble animals who have served us well.

To a few, our horses represent dinner.

Three foreign-owned, US-based slaughterhouses are expected to kill more than 60,000 horses this year alone.

The American Horse Slaughter Prevention Act (H.R. 503) will stop them!

Call your federal legislators today and urge them to support a ban on horse slaughter. Ask them to cosponsor the American Horse Slaughter Prevention Act.
